## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1, 3, 5, 10-15, 17-27, 29-40, 42-46, and 48-57 are allowed.

The following is an examiner's statement of reasons for allowance: Applicants arguments against the prior art has been found persuasive and all prior art rejections have been overcome. The specific reason for finding the subject matter allowable is as follows:

1.) None of the prior art fairly teaches the contact order that allows for a catalyst to be made with titanium tetrachloride without the additional use of a reducing agent to adjust the oxidation state of the titanium, nor does any of the prior art recognize that the contact order can affect the oxidation state of titanium of a formed catalyst.

2.) None of the prior art fairly teaches the components of the claims being brought into contact to form a solid reaction product having a particle size of 1-500 microns.

3.) All the prior art found requires the addition of a halide source to precipitate the product.

4.) None of the prior art fairly discloses the specific ratios of different catalyst genus used nor do they disclose the specific species from these genus.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JAMES E. MCDONOUGH whose telephone number is (571)272-6398. The examiner can normally be reached on 8:30am-5:00pm.
